

Making Spray Systems since 1959 - World Leading Innovations in Composite & PU Spray

24C730 & 24C730-3B Expanding Blade Mixers

Fits into Central 2" Bung on 200 Litre Drum (NOT Outer Edge)

24C730 Mixer with 2 x 8" Blades

24C730-3B Mixer with 3 x 8" Blades

IMPORTANT: NOT Suitable for Standard 2-Bung Drum as if located in the 2" Bung at the Outer Rim then the 8" Expanding Blades will Cut Through the Barrel Wall. Central Bung Only - or request "Drum Side Mounting Bracket" Which angles the Blades towards the Centre of the Drum.

Expanding Blade Fits in Through 2" Bung - Rapid & Efficient Mixing

The Head is Collapsed when not rotating so will drop in through a 2" Bung Easily. Expanding Blades works as Agitator at Low RPM & Shear Mixer at High RPM. Creating Drum Circulation & Micro-Shearing - Cutting unmixed Material Back into Suspension Quickly & Efficiently.

Specification: 1.75HP Gast Air Motor Requires 22cfm@100psi at 500 rpm. The Shaft and Heads are made from Stainless Steel. Sound Level 82dB. Weight 6kg. Must Use "Marvel Mystery Oil" Daily!
