

The Most Advanced Equipment - High Performance Technology

ANTI-CORROSION **FIRE PROOFING** ROOF COATING **PIPE AND TANK COATING**
WATERPROOFING STRUCTURAL STEEL COATING **MARINE & SHIPBUILDING**
OFFSHORE RIGS **WATER TREATMENT** AIRLESS PAINTING **BRIDGE COATING**

Quality, Reliability and High Performance

High Quality Engineering the new range of High Pressure Airless Systems technologically advanced, durable, long lasting and profitable. Low Maintenance - Easy Service.

Full Range of Machine Options - For All Applications Single Component & Dual Component Pumps

695 & Mark V

Merkur

E King

XL70 King

King E-Max XT

Ultra Max II 695: Electric Paint Sprayer. Available as 110V or 240V System.

Mark V HD: Heavy Duty Electric Paint Sprayer. Available as 110V or 240V System.

Merkur: Entry Level Pneumatic Units. Low Cost. Lower Output. Easily handled by one operator.

E-King: Electric Medium Pressure. Less investment than E-Max XT, but less pressure.

XL70 King: Top-Of-The-Range Pneumatic Airless. Heavy Duty Air Powered High-Performance Pump. NOTE: This requires a large volume of Compressed Air to Run. Industry Proven. High Pressure, High Output.

King E-Max XT: Top-Of-The-Range Electric Airless. Heavy Duty High Performance Pump. Electric XT Extra Torque Motor. High Pressure, High Output. 32Amp via 1P or 3P
