

**The Most Advanced Equipment - High Performance Technology**

**ANTI-CORROSION FIRE PROOFING ROOF COATING PIPE AND TANK COATING  
WATERPROOFING STRUCTURAL STEEL COATING MARINE & SHIPBUILDING  
OFFSHORE RIGS WATER TREATMENT AIRLESS PAINTING BRIDGE COATING**

**Quality, Reliability and High Performance**

High Quality Engineering the new range of High-Pressure Airless Systems technologically advanced, durable, long lasting and profitable. Low Maintenance - Easy Service.

**1K & 2K (Single & Plural Component)**

Single Component or Twin Component Configurations available.

**Full Range of Machine Options - For All Applications  
Single Component & Dual Component Pumps**

**Merkur**

**XL70 King**

**XP**

**XM**

**E-Mix XT**

**Merkur:** Entry Level Units. Cheaper investment. Lower Output. Easily handled by one operator.

**XL70 King:** Heavy Duty Air Powered High-Performance Pump.

**King E-Max XT:** Heavy Duty Electric High-Performance Pump.

**XP Range:** Pneumatic 2K System with Fixed Ratio 1:1, 1.5:1, 2:1, 3:1 & 4:1 Options

**XM Range:** Pneumatic 2K System 1:1 to 10:1 Variable Ratio Precise Control for Critical Quality Coatings.

**King E-Max XT:** Easy to use & quiet operation Electric 2K Variable Ratio 1:1 to 6:1
